● Action Role Playing This style of RPG is popular in the action genre. You are able to enjoy a variety of actions in real time. Furthermore, battles are easy and enjoyable thanks to auto-battle. ● Inspired by an Action Game However, there are few games in which the player can enjoy both of the "RPG" and "Action". Therefore, we decided to create an RPG with action game elements and implement our own action game elements to the RPG genre. ● Unique Online Battle System In the action RPG genre, it is common to place on a battlefield a large number of opponents, but this was difficult in the action RPG genre. Therefore, we decided to arrange a battlefield in which a large number of players can battle at once, and we implemented an online battle system whereby you can go on an adventure with up to four players and can easily enjoy the scene of multiple battles at once. ● Online Multiplayer In addition to the in-game multiplayer, with the online battle system, you can also enjoy the scene of battles with up to four players at once. ● Easy for the Player to Play While seeing the number of steps and endless amount of information in the game, we have tried to make the game easy to play. ● Easy to Learn and Easy to Get Involved in In order to quickly get into the game and enjoy the game, we have implemented the skill action interface that is easy

for the players to learn. The game requires the user to learn the basic skills that are used in the game, but there is a way for the user to continue to enjoy the game even after he or she has learned the basics. In addition to this, even in the battle against superior opponents, the player can form a party and play together with the other members of the party with ease. ● Game World The Lands Between The setting of the lands between is an ancient battlefield in which the Lords of the neighboring country clash. This is an area full of dangers that border on the Underworld. Although the gods have decided the final outcome of this conflict, the Lords who competed in this battle died before being resurrected, and their lordships did not exist. The story of the Lands Between The lands between is a vast battlefield where the Gods have decided the outcome of the battle. But since both sides have died, their lordships did not exist, and the powerful demonic forces that were led by goddesses from the Underworld came
