Utilities. is an all-in-one 3D CAD software for.Q: GLEW with GLFW3 fails to load libGL I'm using Windows 8.1 (64 bit) and I have the latest version of mingw (4.8.1). I'm running Visual Studio 2013, with project set to C++/CX. I'm trying to make GLEW with GLFW3 work. When I try to create the library with that makefile, I get the following: C:\Program Files (x86)\Windows Kits\8.0\Include\um\glewinfo.h(19): error C4039: 'glewExperimental' : unspecified label 'enum __WGLEW' I think that the issue is related to the fact that GLEW has an experimental include, but I can't figure out what is wrong with the makefile. If I remove the line #define GLEW_BUILD_EXPERIMENTAL it compiles with no errors. This is the only error I'm getting. But, I have also tried with the wgl library, but I get the same error. C:\Program Files (x86)\Windows Kits\8.0\Include\um\glewinfo.h(19): error C2039: 'glewExperimental' : is not a member of 'glew' Here is the content of the makefile: TARGET = cgil TEMPLATE = app CONFIG = RELEASE CFLAGS = -I\$(LOOK) LDFLAGS = -I\$(LOOK) -L\$(LOOK) -lglfw3 -lopengl32 -lgdi32 -l 570a42141b
