“We believe that in-match motion analysis will help us to create the most realistic and authentic football match experience possible,” said Toni Ulrich, SVP, Producer, FIFA. “HyperMotion Technology is a perfect example of the possibilities offered by our new data pipeline, helping us bridge the gap between what we create in the virtual world and what players can experience on the pitch,” said Michael Nieva, Head of Virtual Reality, EA Sports. FIFA 22 will be available for pre-order from March 12, and a bevy of new features will be available exclusively for Origin Access Premier members. For more details on FIFA 22 and our origin exclusive features for EA SPORTS and Origin Access members, please visit FIFA 20 FEATURE RECAP FIFA 20 combines the award-winning gameplay of FIFA 19 with a new set of in-depth gameplay systems and improvements including new goalkeeper AI, ball physics and ball intelligence, new contextual in-match goalscorer creation, and new Optimal Trajectory™, to deliver the most authentic football gaming experience. New Positioning AI (including in possession) FIFA 20 includes several improvements to the positional AI, including new defensive and offensive line presence, pressure and anticipation, with more time spent pressuring the ball, changing shape and managing the defensive line and marking players, in a way that is more representative of the human player. Enhanced Ball Physics FIFA 20 introduces the best ball physics on the market, plus ball reflectivity has been improved, improving ball control and giving you more of an edge by allowing you to kick the ball back where it bounced off a wall, or even see the flight path before you kick. More intelligent tackling and better contextual play New tackling behaviors include more defensive and more offensive techniques, including tackling options from distance, timing and anticipation, as well as the ability to choose the type of tackle you will use to defeat your opponent, whether a head-on tackle or a slide tackle. FIFA 20 introduces a fully-fledged contextual gameplay system that allows you to tell your opponent exactly what you would like them to do. This contextual gameplay helps to create more variety in both passing and shooting, and also makes your decisions more precise. Goalkeeper and assistant goalkeeper FIFA 20 introduces a goalkeeper AI

EA SPORTS Football 30 new teams, 40 new stadiums, new mobility options and a new Champions League: Just a few of the features that have been added to FIFA 22. But what's in the new features, and what's next? We chat with the creative minds behind the scenes at EA SPORTS to find out... Mobility Take the pitch just about anywhere with new mobility options that let you move at the speed of play. Free Kicks Execute a free kick through a wall? Don't be surprised if you see it in FIFA. Bomb Defusal Be like the defender - no nerves, just skill. Use your right foot to control and bounce a bomb to divert it from the goal. Match Day Lunches Taking your lunch break on the way to the grounds is a thing of the past. Now, create a custom lunch or dinner break and watch your team prepare themselves for the match. Match Day Intermissions When it's time for half-time, but the flow of the game is slow, take a quick break from the action by controlling a custom-made refreshment break or challenge your team to a quick-fire mini game. Outsided Tactics Use the official video replay system to create an offside trap. Can you have it both ways? Soccer Practice Grace a free kick in mid-air or control a player's movements with wall running using the left stick. These new ways to control the ball add another layer to your game and to your tactical adjustments. Performance Tracking Log in to EA SPORTS and check in during the match to view your performance in real time to hone your skills. Ultimate Team Create the best XI from over 30 new teams including a new National Team. Tackle Tactics Avoid the 'kicks and runs' and control the ball to your advantage with new tackles and passes. Goalkeeper Physics Experiment with new gameplay and dynamic challenges, including
