This screen capture software combines fun and education with proven tools to create captivating screens for students, teachers and even parents. A split screen environment lets students work on two projects at once, more co-workers can record details about each project as it comes to completion, and teachers can have a tool for record work and grading. Full support for Windows XP and later. Please refer to the Help file (English only) for detailed information on the tool. The Currency Converter Pro+ is the European version of the Currency Converter Pro. It automatically converts text, data, dates and numbers between all the different world currencies. It's easy to set which currencies you want to convert, and you have the possibility to configure the columns of the table into which the currency conversion will be made. The total amount that you want to convert is always the same as the sum of the converted values. For those using the powerful Multithreading technology, you can select how the calculations should be carried out: a complete batch mode or a sequential process. All the conversion results are displayed in a table that includes the original values. In addition,
