It's that inevitable future point when machines become as intelligent as humans. Mathematician and futurist Ray Kurzweil is among those who foresee an Age of Abundance and Prosperity for mankind, while Elon Musk is so concerned about that singularity that he's actually funding a study on it. But most people may not be aware of an even more fundamental singularity. Every particle of matter in the universe — that's nearly ALL of it — was once part of another particle. Well, maybe not everything," says Simon Jack. Of course, it's very difficult to grasp such a thing. Most of us spend our entire lives learning how things d41b202975

●●●●● From the publisher: "A surreal physics platformer, ARKYD - Agent of ARKYD lets you play as a cyber-terrorist/eccentric amnesiac, whose mind is downloading itself and gaining new abilities, thus the player needs to solve puzzles to unlock new memories of its past. ARKYD is an addictive, physics based platformer with diverse worlds to explore and endless puzzles to solve. ARKYD is a refreshing take on the classic concept of 'metaphysical exploration' and a powerful next-gen physics experiment. Future updates include more levels, weapons, enemies and more. Fun for everyone, all age." During E3 2017 I sat down with Binding of Isaac: Rebirth's lead designer Edmund Mcaleese to go over the backstory, unique mechanics, and challenges of managing a roguelike in the modern era. After seeing the extra content for the Binding of Isaac 'Rebirth', I had to go and get myself the original game. It's really a fitting addition to the franchise and I hope it feels like a natural fit, even though it's been out of circulation for a while.
