This is where we go through the basics of the web framework D3. The goals of this tutorial are to get you through the basics of D3 to understand what's going on when you use D3. This is meant as a primer to get you up to speed with the basics of what D3 is and how it works. On this video, we're going through the basic concepts of D3 that you will need to know when you start creating your own visualizations with D3. We're not going to cover everything on D3. This is meant to be a quick introduction. Then, over the course of the next several months, when you start to learn D3, you'll have a better understanding of the different parts of D3. You'll also have a better understanding of how to go about creating your own D3 visualizations. We're going to discuss what D3 is, what you can do with it, what you can do with D3, and how to get started using D3. Getting D3 is the first step for most of you. To get started with D3, you just go to the D3 site. You can get D3 from GitHub. This is D3. You can download the D3. You just get it from GitHub. This is the reason you're going to get it from GitHub. But, the URL is This is the source site of D3. You're also going to download the Javascript and CSS files from the GitHub site and you'll place them in the file structure of your project. Sometimes, D3 will install itself in your local folder. You'll notice something called global.d3.js. This is the file that you're going to need to download. You'll have a file called global.js. Then, you'll notice D3.js in this folder.
