Embodiments of the present invention relate generally to word-addressable memory arrays and more specifically to wordaddressable memory arrays that provide single ended access to read and write data. Various word-addressable memory arrays are known in the art. For example, U.S. Pat. No. 6,545,865 issued to Kobayashi et al. on Apr. 8, 2003, describes a memory cell array having a plurality of memory cells coupled to word lines. The word lines are coupled to a memory device write circuit and a
