Download

Maglev systems are generally considered as bullet train systems, but this study shows that the potential market for maglev technology as a train system ... 1. History Maglev systems were developed in the 1940s to create bullet trains. In the 1980s, Maglev Transmission Systems, Inc. (MGTS) has received approval to test the Superheli bullet train system in Nevada, California. In 1993, MGTS introduced its first Maglev Transmission Systems prototype. In July 1995, it was announced that Maglev Transmission Systems was now in commercial production.
